# Marshall Library resources and services

## Books & ebooks

The Marshall Library provides access to thousands of books and ebooks supporting taught courses in both Economics and development Studies.

Students on taught courses can borrow up to 10 books while PhDs can borrow 20. These limits are flexible so you can easily borrow additional books if you need them.

*All books renew automatically for as long as you want them and there are no fines.*

### ‘Click & Collect’

All Marshall Library books are available using the Click & Collect option in the iDiscover catalogue. **What does this mean?** The books you request via Click & Collect will be retrieved from the shelves by library staff, issued to your account and will be waiting for you to collect from the Issue Desk. You can, of course, still borrow books directly from the shelves.

## Books & ebooks purchased on demand

The Library always welcomes book purchase suggestions from students and staff so please let us know if you don't think we have sufficient copies of a particular title or if there is something that we don't currently have and that you require for your dissertation or research. The easiest way to do this is via the **Book Suggestion page on our website under the Contact Us tab.**

## Scanning chapters from reading lists

When students are asked to read chapters from books that are not available as ebooks or where there are insufficient print copies the Library will scan chapters and make them available via it's Moodle site. **If a book has had a chapter scanned by the Marshall Library then a link will appear in the iDiscover catalogue.**
